

Motor System Maintenance and Management Scorecard (MSMM Level 1)

How are your motor systems treating you? Are they unruly and out of control? Are you finding that a disproportionate percentage of your maintenance budget is invested in your electric motors?

Do you know?

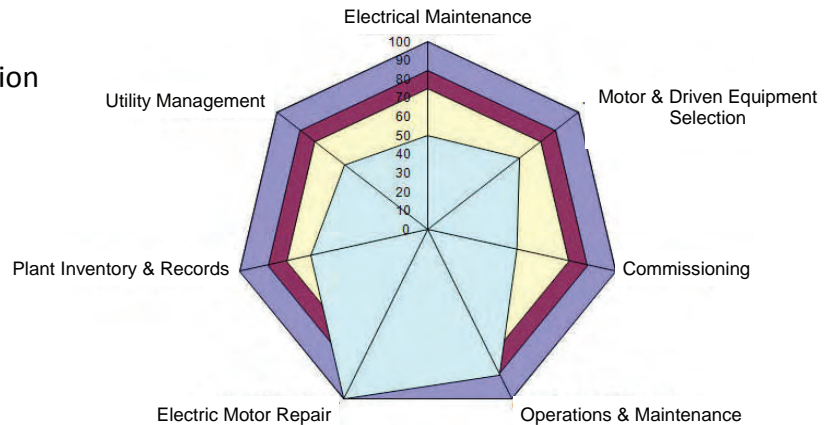

Do you know where to begin?

Is your average motor life less than 20 years?

In three two hour sessions on Motor System Maintenance and Management, we will discuss how to evaluate your program in order to help you determine where to focus your resources in the development of a program and best practices. By the end of the course, you will be able to evaluate your company or client in the following areas of opportunity:

1. Electrical Maintenance
2. Motor and Driven Equipment Selection
3. Commissioning
4. Operations and Maintenance
5. Electric Motor Repair
6. Plant Inventory and Records
7. Energy and Environment

Motor Maintenance Opportunity Score

During the present time of opportunity, score your program, know your strengths and weaknesses, and know how to hit the ground running!

\$295 USD /Seat

Live Sessions: 10am to noon EST May 26 to 28, 2009

**If you are unable to attend the "Live" Session, it will be available at the end of the business day via the web. We will send you the link.*

The course and materials will be made available for purchase via the web or CD Rom after May 30, 2009

Phone/Fax: 860-577-8537
Training@MotorDoc.com

The course instructor, Howard W Penrose, Ph.D., CMRP has over 25 years in the electric motor and R&M industry from repair to field service and from facilities to military and in all business sectors. He has been developing motor system maintenance and management programs and best practices since the late 1980s for companies including General Motors and US Steel. He is the President of SUCCESS by DESIGN® and the editor-in-chief of the IEEE Dielectrics and Electrical Insulation Society Web and has won numerous awards for his innovative programs based upon results and impact on the bottom line. He is the author of the 2009 Axiom Business Book Award Winning 'Physical Asset Management for the Executive,' and 2009 ForeWord Book of the Year Award Finalist 'Electrical Motor Diagnostics: 2nd Edition.'
